

Kelly Chandelier Large

Gabriel Scott

The Kelly Chandelier was the first lighting fixture to be designed by Gabriel Scott back in 2012 and continues to be one of the studio's most specified fixtures. With its Art Deco design, the Kelly Chandelier's metallic chains add a touch of glamour to any space.

Available in satin brass or black steel, the Kelly Chandelier combines warm light with cold metal, and can be specified in small, large or extra large sizing.

A custom Kelly design was specified for a one-off centre-piece for the bar within Sam's Bistro, located within the Fairmont Le Château hotel in Quebec, Canada. Please get in touch should you want to discuss a custom
