

Marx Stool

Gabriel Scott

Blending components of the brand's signature collections, the Marx Stool brings together a geometric metal x-base with a lightweight upholstered cushion top.

The metal x-frame is sold with the same colour metal bracket as the frame. If you require a different colour metal (black frame with brass bracket, for example), please specify this upon point of ordering.

A versatile piece, the Marx stool can be used in endless functions and contexts to add a touch of contemporary design to any style and space.

Starting at: \$2,000

Leadtime: 12-14 Weeks
