

## Mass Console by Tom Dixon

A console table with real scale, weight and presence to make it a permanent part of its environment. An experiment in heavyweight, metallic, minimalism. Each is formed from a wooden frame clad in brass foil which is then lightly patinated and waxed.

Price Upon Request

Please be aware additional delivery charges and longer lead times apply to this item. Larger items and deliveries beyond mainland UK may require special delivery services and may take a little longer to arrive. Once we've received your order we will be in touch to make arrangements.
