

Supra Bubble Chandelier

Pelle

The Supra Bubble Chandelier, based on PELLE's original design, was first conceived in 2016. The airy, hand-blown glass bubbles are anchored to the lighting fixture by precision-tooled hardware. The light's decorative natural cotton coiling (available in leather cord as a custom upgrade) is meticulously done by a practiced hand.

Each intricately handmade chandelier is crafted to order in PELLE's Brooklyn-based studio.

Starting at: \$10,100
