

Welles Central Chandelier by Sybille de Margerie

Gabriel Scott

A beautiful cluster of hollow and plain shapes, the Welles Central Chandelier by Sybille de Margerie uses moveable padded vegan leather panels to create a truly customizable lighting fixture, available in a variety of metal and vegan leather finishes.

Parisienne interior designer Sybille de Margerie has utilised her years of experience designing luxury hotel and residence projects to create her Welles Reimagined capsule collection. As a contrast to the original Welles sharp metal and glass silhouette, Sybille has created a new interpretation revealing the feminine side of her signature design style.
