

Welles Vertical Chandelier by Michelle Gerson

Gabriel Scott

Inspired by the current climate and post pandemic mood, Michelle Gerson's Welles Vertical Chandelier is a striking yet feminine fixture which can be used as a standalone option or as multiple cascading fixtures to spiral down a staircase.

Embodying a sense of artistry, the Welles 7 Vertical Chandelier by Michelle Gerson is handcrafted using alabaster white glass which are scaled down from the original Welles, and delicately cut metal leaves and hardware which are available in Gabriel Scott's signature metal finishes.
