

X-Tall Bubble Chandelier

Pelle

A variation of the original design, the X-Tall Bubble Chandelier was first designed in 2011. The light fixture is 60 inches tall, but is available in custom heights should a taller fixture be needed for your space.

The extra-tall chandelier features hand-blown glass bubbles anchored by precision-tooled hardware and finished with natural cotton decorative coiling—all meticulously done by a practiced hand.

FOR GLASS UPGRADES: If less than 100% of total globes are selected, please note a specified arrangement/order that you prefer at checkout (ie lower half, middle, top, or spaced out).

Starting at: \$11,400
