#### CARE INSTRUCTIONS:

PETRA is a solid fixture that will require very little maintenance over the years, however changes in appearance of hand applied finishes or unlacquered finishes will vary as these (finishes) are designed to age in appearance. If your PETRA is treated with care, it will shine brightly for many years to come. We recommend some general tips to help keep it shining its brightest:

- Remove dust by simply running an electrostatic duster or dry cloth every few weeks over all exposed surfaces.
- Under no circumstances should the fixture be cleaned with any type of liquids/detergents or solvents.
- If more than dusting is required, please contact us at:
