drop series side table

D01 / D02 / D03

Drop side tables are constructed of stone and metal and are offered in three models. The 2 cm 'drop' shaped marble top features a reverse bullnose edge profile and is notched to allow the metalwork detail to be viewed from the surface. Drop side tables may be used independently or in nested groupings. Custom materials are available. This product is well-suited to contract use on hard flooring surfaces.
