

SkLO

Swagged Hang-Straight Canopy

CANOPY OPTION

The Swagged Hang-Straight Canopy option enables many of SkLO stem-hung fixtures to be suspended from a location separate from the electrical box while also accommodating all ceiling slopes.

The fixture will be wired with an additional fabric-wrapped electrical cord, allowing it to be swagged from the canopy to the fixture location.

Includes the following:

1/8" (3mm) thick, 5" (127mm) diameter brass disc canopy with two exposed fasteners

Brass hook-and-loop assembly that fastens directly to the ceiling (hook attaches to the top of the fixture stem)

Exposed fabric-wrapped electrical cord to swag from canopy to fixture location – Field adjustable – Standard cord length 72" (1830mm) – longer lengths available at an additional cost

See list of compatible pendant designs on the right

This canopy option is available at an additional cost – please specify when ordering.
